To Whom It May Concern,

It has been an honor and a learning experience to work with Allison Sampson and Karen Constine these past seven months. The Cultural Planning Steering Committee and I are proud of the work that was accomplished. It was all made possible by the patience and incredible guidance of these two consultants. The final product is a tribute to Allison Sampson Management Consultants (ASMC) and the Committee. The consultants kept everyone on track even though we were, at times, a challenge to stay on course. I look forward to our City Council and Mayor's unanimous endorsement and adoption of the Plan and to a continuing friendship with our consultants as we celebrate the milestones of the Cultural Plan's implementation.

ASMC gave us all of the support and leadership we needed to keep up the momentum and complete a terrific Cultural Plan for the City of Beverly Hills. I look forward to working with them on future projects. If a further reference is needed about ASMC, please feel free to contact me at 310.285.2523.

Sincerely,

A handwritten signature in black ink, appearing to read "Brad Meyerowitz", with a large, stylized flourish at the end.

Brad Meyerowitz
Recreation Services Manager
